

Connecting PuTTY to the Haywood County Tax System Online

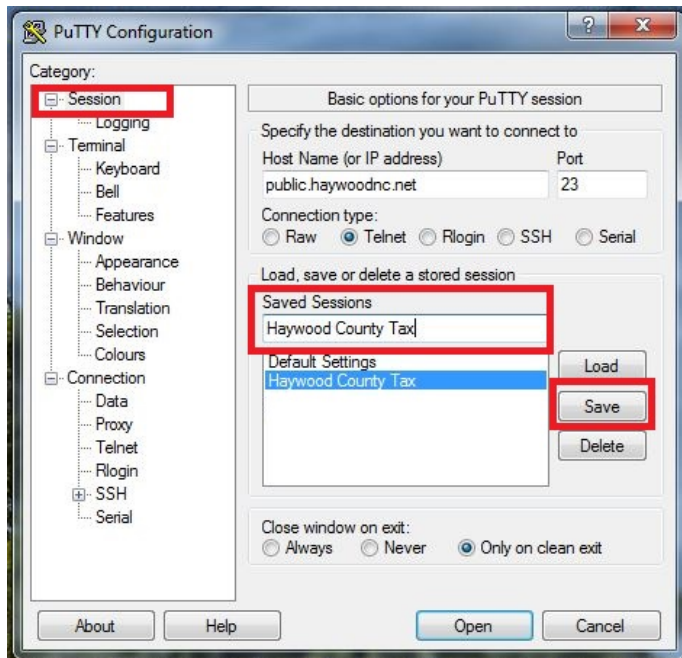

1. Download and install PuTTY from <https://ninite.com/putty/>
2. Click the desktop icon to open the software.
3. In the “Host Name” field, type **public.haywoodnc.net** and click the “Telnet button.

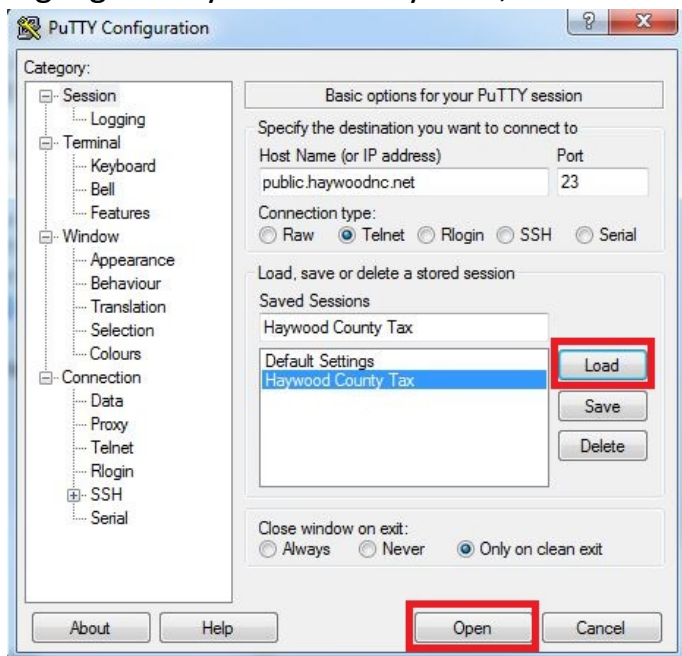

4. From the left menu click “Data” under “Connection”
5. In the “Terminal-type string”, enter **ANSI**

6. In the left menu, click “Session”. In the “Saved Session” field, enter **Haywood County Tax** and click the “Save” button.

7. Your session is now configured. To connect from this point forward, simply highlight “Haywood County Tax”, click “Load”, then click “Open”.

8. Once you click open, you should be presented with a login screen. The username and password is the word **public**.
